Forecast for Wednesday 15 Mar 2023

Weather: Some good sunny spells this morning but cloud then gradually increasing, with some snow flurries arriving towards dusk these becoming more persistent in the south later in the evening. Chance of blizzard conditions developing on the Plateau as winds pick up.

Chance of cloud-free hill tops above 800m: 90% through most of daylight hours, falling 60% by dusk and then falling steadily to 10-20% during the evening.

Low cloud and visibility: Most of the day seeing little low cloud and good visibility. Then cloud gradually lowering into the evening to 600-750m with snow bringing locally poor visibility below this too.
